

# MIGHTY MICROS

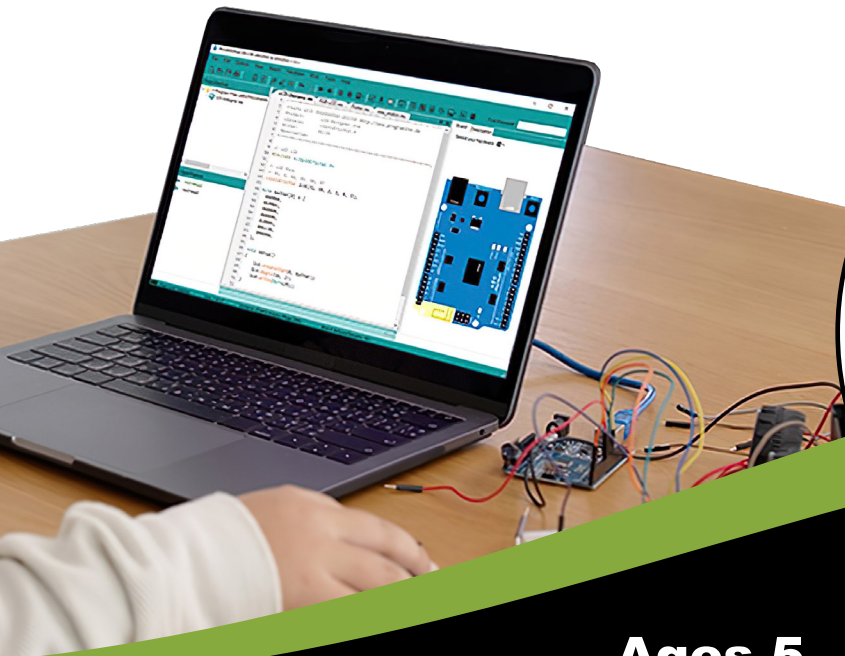

Explore the World of Microcomputers!

Enter the amazing world of microcomputers that we call **Mighty Micros**! What are microcomputers? They are mini computers that control functions found in office machines, robots, appliances, cars, jets and even cities.

Kids will create their own musical instruments, invent clever gadgets that light up and buzz or build interactive art pieces. From circuit design to writing code, kids will bring their creative ideas to life.

## COURSE FEATURES

- Circuitry
- Python
- C++
- Critical thinking
- Electrical engineering
- IoT

**Ages 5 – 15**

**GenTech**  **TECH SUPPORT**  
Preparing today's kids for tomorrow's tech.
